

SUMMER 2005

This is the newsletter of PayThyme, the new deal in payroll software, from Clockwork Software Systems. Published quarterly, it is available for download from [www.paythyme.com](http://www.paythyme.com). The new deal in payroll software is that PayThyme has no inbuilt constraints on employee numbers, number of payrolls that can be run or on numbers of users.

## 2005 EoY Online Triumph!

HMRC have advised us that at least 1315 companies made their EoY returns online using PayThyme's EoY filing module FileThyme.

The returns were made by three distinct groups of employers:

- Those using complete PayThyme payroll solutions supplied by us, ranging from a large bakery operation with 700+ employees to employers a couple of people on the payroll.
- Businesses that integrated the FileThyme EoY filing module with their own payroll software. These included a payroll software developer and payroll bureaux, as well as large construction companies.
- And those who used FileThyme as a standalone solution for EoY filing, either using FileThyme themselves, or using our services to validate and submit their EoY data.

## 50 or more employees? You must submit online for 2006

HMRC have mandated that you must submit your payroll EoY returns online for the 2006 tax year, or face financial penalties.

Talk to us now about how we can make this easy for you, using any of the options described in the previous item.

If you use a payroll bureau already, we offer the same service at competitive rates and our charges included submitting your EoY returns online.

## PayThyme Payroll Bureau

Some employers don't want the hassle of running their own payroll, so they outsource the task to a payroll bureau, or to their accountant.

Our rates are competitive – from just £25 per payroll run for a basic payroll service for up to five employees - and whether you currently run your own payroll or use a payroll bureau, it's worth checking to see what savings and other benefits you can gain.

The same PayThyme payroll software that we have developed and that we provide on a commercial basis to employers who run their own payrolls is used to run the payrolls supported by our bureau service.

Email [bureau@paythyme.com](mailto:bureau@paythyme.com) or call 0121 313 3855 to contact us about our payroll bureau services.

## PayThyme Main Menu

All PayThyme menus are laid out in 'keypad' format and feedback from users tells us that this is very user-friendly.

Additionally, there are links to other payroll functions from individual screens, as appropriate.

However, if you are more comfortable with the traditional 'list' format menu layout, we can configure your PayThyme system accordingly.

The PayThyme website [www.paythyme.com](http://www.paythyme.com) has detailed information on PayThyme and the FAQ section makes particularly interesting reading for those comparing different payroll software.

Email [info@paythyme.com](mailto:info@paythyme.com) or call 0121 313 3855 to contact us about PayThyme.

Our other applications use the technologies and techniques that make PayThyme so user-friendly.
